

## GF210

### 21"/54 cm

*Gas-Powered Ventilator*

Tried and true, tested and trusted, conventional ventilators have stood the test of time. The GF series are the PPV fans that helped to build the RAMFAN brand in the industry and these feconomical gas fans are well known for their durability.

Compact with outstanding close range ventilation using TurboForce™ technology to generate stronger, faster and more focused airflow than possible with conventional propeller designs. With the large amount of airflow, the fan is powerful enough to use for large structure ventilation.
